Custom Plastic Packaging

Poly Shapes Corporation started out making broom sleeves and hand puppets. Over time, we have expanded our capabilities into making a wide variety of poly bags, pouches, covers, sleeves and various packaging items made with flexible plastic films.

- **CUSTOM SHAPES** - hour glass, tapered, round, hand, foot, long, narrow, wide and odd shapes...we make it to fit your product. As small as your little finger or as large as a car seat cover.
- **NOVASEAL®** - a special manufacturing technique developed to make leak-resistant heat seals for various applications.
- **INDUSTRIES SERVED** - Automotive, Food, Industrial, Medical, Promotional, Retail and others.
- **PRINTING CAPABILITIES** - Flexo and Process - up to 6 colors and 52 inches wide.
- **TYPES OF BAGS** - Sideweld, bottomweld, gusseted, wicketed, grommeted, double-sealed, tape closure, sleeves, shaped bags, and special headers.
- **POUCHES** - Liquid tight, tape closure, zipper closure, stand up, three-side sealed and vacuum pouches.
